

SCHÄFER

Holz bewegt.

Special solutions for industry

CUSTOM REELS

One of our great strengths is in the realisation of special products customised for specific customers. The demands from the industrial sector in particular are many and highly varied. Whether special bores, multiple-chamber reels or printing, there are virtually no limits to your requests.

Individuality is not a foreign word for us.

And that is why we can tailor the reels to meet your needs and requirements.

Do you have any questions about all the things that are possible? Then give us a call.
We will be happy to provide comprehensive advice.

Only the products declared in this document are FSC® certified.
